EXCEPTION REPORT COMMENTS (Info Needed: On-Target, Off-Target, Completed or N/A (No Activity). If "Off Target", please explain why. 1ST QTR: Del. #1 is on target. Del. #2 is off target: there are currently 5 major and 3 minor permits still in process 6 months passed their expiration dates that submitted timely renewal applications. Of these, 5 are in or being prepared for public notice and are expected to be final by January 1, 2007. The Tuma Water Treatment Plant and Cholla Lake are on hold until the Water Quality Standards Rule revisions are complete, and Resolution Copper needs to provide additional treatment and revise its application. A listing of AZPDES Permit status for renewal and new permits is attached. Del. #3 and #4 are on target. Del. #5 is on hold, awaiting finalization of EPA MSGP permit. Del. #6 is off target: there are currently 8 individual MS4 permits that are under administrative continuance. Two of these are currently being drafted and one is expected to be final by early 2007. Deliverables #7 through #10 are on target. 2ND QTR: All deliverables on-target, except the following. Deliverable #1 is off target for 1 permit. Phoenix 91 st Ave WWTP was due 11/06/06; GRC has lodged an objection to ADEQ issuing permit due to jurisdiction questions. Deliverable #2 is off target. There are currently 5 Major permits still in process with passed expiration dates that submitted timely renewal applications. All 5 have completed the public notice process, and should be signed in January 2007, except for Resolution Copper. New information was received during the public notice period for this permit which requires changes to the facility's processes and to the draft permit.. There are currently 3 Minor permits still in process with past expiration dates that submitted timely renewal applications. Of these, 2 are on hold (Cholla and Yuma Main Street Plant), until the completion of the triennial review of WQ Standards, and a third is waiting for 208 consistency. Note also, in addition to the above, 25 new permits are in various stages of development. Deliverable #5 is off target. Progressing the AZ draft MSGP permit has been delayed due to EPA's pending MSGP that is currently in the process of being finalized, as well as the uncertainty of the <i>Defenders</i> case. Deliverable #6 is off target. There are currently 8 individual MS4 permits under administrative continuance. 2 of these are currently being drafted, and expected to be finalized by 9/30/07. A preliminary draft permit for Phoenix was sent to review to EPA on 6/1/06. A revised draft and fact sheet are expected to be completed by early February 2007. Deliverable #10 status: 31 out of 41 SWMPs have been reviewed. 21 have been approved to date; the rest have been given deficiency letters w/ direction to correct SWMPs.
